VICE-RECTOR'S BULLETIN

FACULTY OF ARTS AND SCIENCE

JANUARY 1981 - BULLETIN NO. 13

---

The final report of the Arts and Science Special Task Force on Curriculum has been made public. The text of the report is reprinted in the January 22nd issue of The Thursday Report.

I wish to express my warmest thanks to the members of the Task Force, and in particular its Chairman, Dean M. Cohen, for the seriousness and enthusiasm with which they fulfilled their mandate.

This report will be discussed at Faculty Council within the coming months. It is extremely important that all of us in the Faculty be aware of the issues involved, and be prepared to explore them in an atmosphere of open and creative dialogue. We are dealing here with the very raison d'être of the Faculty.

I ask you to give the report your serious and thoughtful consideration.
